RouteMatch Software Opens New Office in Denver, Colorado

-- New RouteMatch office supports customers in the Western region, including the Denver Regional Transportation District --

ATLANTA, May 8, 2008 – RouteMatch Software, Inc. today announced the opening of its new office in Denver, Colorado at the Denver World Trade Center, Tower 1 in downtown Denver.

The new RouteMatch office will serve customers in the Western region, including the Denver Regional Transportation District (Denver RTD), a large urban transit system providing over 2,800 daily trips across an eight-county service area. The Denver RTD is currently implementing a large-scale intelligent transportation system including paratransit scheduling software, in-vehicle wireless mobile data technology, and communications hardware and software to enable real-time communications.

Currently, the RouteMatch Denver office staff is comprised of a regional sales representative, business development director, implementation consultants and support staff. RouteMatch's six-person customer support team out of the Atlanta office will also continue to provide customer support.

“Due to the number and size of customers we have out West, it was the right time to set up a separate, full-service office in Denver. By being closer and having a dedicated office for our customers, we can continue to deliver world-class customer service and technical support,” said Tom Coogan, vice president of strategic planning.

About RouteMatch Software

RouteMatch is the leading provider of transit ITS software and solutions. Founded in 1999, the company is headquartered in Atlanta, GA, and its software is currently in use at more than 240 sites in 43 states across the U.S. and has experienced one of the fastest growth rates within the industry in the past four years. Targeting private and public sector passenger transportation providers, the company's products address routing, scheduling, dispatching, billing, reporting, fixed route CAD/AVL, paratransit and fixed route integration, business intelligence, transportation coordination and more. Additional information about RouteMatch's ITS technologies is available at www.routematch.com or by calling RouteMatch toll-free at 1-888-840-8791.
