RouteMatch Software to Deliver State-of-the-art Urban Transit ITS Technologies to Rockford Mass Transit District

- RouteMatch TS to serve as a tool in helping Rockford realize greater efficiencies, productivity, and functionality in servicing area residents -

ATLANTA, April 22, 2005 – RouteMatch Software, Inc. today announced that it has been awarded a contract to provide its flagship software application, RouteMatch TS™, to Rockford Mass Transit District (RMTD), an urban transit system located in Winnebago County in Northern Illinois. RMTD and RouteMatch will also be partnering with a “to be determined” Mobile Data hardware provider to offer an Automated Vehicle Location (AVL) and Mobile Data Computer (MDC) solution.

RMTD is experiencing rapid growth and to help manage all future growth, the company turned to RouteMatch to deploy new technologies for its transit system. By implementing new software technologies to assist in its paratransit scheduling, automated vehicle tracking, and mobile data communications, RMTD can achieve efficiencies and operational improvements to reduce operating costs, improve service delivery, and expand service and mobility for its customers.

“RouteMatch will offer a solution that will reduce RMTD’s total cost of ownership for its transit ITS technologies,” states Chris Campbell, southeast regional sales director. “In addition, RouteMatch will provide a level of implementation and integration services that will exceed expectations and be able handle all future growth.”

About Rockford Mass Transit District

Rockford Mass Transit District (RMTD) is an urban transit system located in Northern Illinois. RMTD utilizes 26 vehicles and runs approximately 400 trips per day (but this number is rapidly increasing).

About RouteMatch Software

RouteMatch Software is a proven leader in transportation and logistics technology and services, with specific expertise in demand-response and paratransit systems. Targeting private and public sector transportation providers, the company's products address routing, scheduling, dispatching, billing, reporting, fixed route integration, and

transportation coordination. Founded in 1999, the company is headquartered in Atlanta, GA, and its software is currently in use at more than 115 sites in 29 states across the U.S. Additional information about RouteMatch Software products is available at www.routematch.com or by calling RouteMatch Marketing Services toll-free at 1-888-840-8791 or 404-876-5160.
